Testimonials

Studio Change

Rob Key, Creative Director

"...as well as doing an amazing job for our clients, Alexis has used her initiative in finding new projects, developing existing relationships & supporting our 'profit for purpose' work. Alexis has **all the design skills you would hope for, but her real value lies in her ability to see beyond the brief & come up with new & inventive ways of doing things.** She is trustworthy, reliable & goes above & beyond in client work & enhancing studio culture. She would be a great asset to any creative studio."

Ave Design

Ellie Thompson, Creative Director

"Alexis was responsible for running some projects from start to finish, as well as working in a team as part of larger projects. When running her own projects, Alexis would **liaise directly with clients & a thorough & friendly manner, as well as speaking to our suppliers...**I was really impressed with Alexis' working process...Compared to a lot of Juniors we have worked with, Alexis is head & shoulders above them...**she has the initiative to manage her own time, communicate reliably & take on tasks** with admirable responsibility. She is an asset to any studio."

Landor

Carl Halksworth, Design Director

"Everything she's touched has been hallmarked by her enthusiasm & ideas. She's **very bright, very interested & very interesting.** She's **also a wonderful jangly bagful of cultural references, events & happenings.** I'd love the opportunity of working with her again."

Kate Hendry, Senior Designer

"...Such passion for creativity & great personality to have around! **Never seen anyone do a magic trick in a meeting. It was brilliant.** Very happy to get stuck in & apply herself, which is an attitude that will get her far! Will certainly miss having her around, our loss is annoyingly another studios gain!"

Lambie-Nairn

Sophie Lutman, Creative Director

"Alexis is **energetic, enthusiastic & a hard worker...**She is happy to get involved at any point in our process, & has been responsible for some pieces of work from idea generation to artwork. Our clients have responded well to her work & she is quick to understand what is required of her on any job she has worked on.

Alexis is versatile with the creative mediums she uses & is **just as adept at working digitally as crafting by hand...**She has worked flexibly for the benefit of the team & makes **excellent contributions to brainstorm sessions** & idea development meetings. She has a **good imagination, thinks laterally & is ambitious in her creative offer.** She is confident & can **communicate her ideas well without being precious.**

Alexis is a fun, positive person to have around & has been a great addition to our studio."
